EXPERIENCE

Zensar, Pune — Senior Software Engineer

Feb 2019 - PRESENT

PROJECTS -

CISCO (Webex ecommerce)

Team size -5

Technologies - React , Redux , NodeJs, Express , HTML ,
CSS, Jest and Enzyme

Roles and Responsibility -

- 1) Requirement Gathering
- 2) Create UI using React Components with business logic
- 3) Write test cases using jest and enzyme
- 4) Develop REST API's with business logic
- 5) Integrate API in UI
- 6) Make UI Changes as per new country requirement
- 7) Localization with country
- 8) Code review
- 9) Weekly demo
- 10) Pager Duty

Application - We are developing an eCommerce part of cisco webex product. We are growing it country by country. We have two flows, direct buy flow and change order flow. We have the same functionality but the UI is different for these flows.

SUMMARY

I'm a technology enthusiast, problem solver and believe in learning new skills. I would like to work in a challenging environment and be known for the depth of knowledge, quality, hard work,
